## EMPOWERING SLEEP WELLNESS

The QDME Complete team manages personalized care plans focusing on therapy compliance, positive outcomes, and patient satisfaction.

**Sleep Coach Program** - During the first 90 days of treatment, patients receive personalized guidance and timely outreach via text and email to help establish PAP therapy as part of their nightly routine. This ongoing support provides education and motivation that drives long-term success.

**Resupply Program** - We make replacement supplies simple with easy click-to-order via text or Autosupply (when eligible). Patients receive supplies on time, reducing therapy interruptions and supporting adherence.
